

## Principal's Message

Dear Parents,

As per Cambridge dictionary, school is " a place where children go to be educated".

Education, in a broader sense does not mean to provide bookish Knowledge or encourage students for rote learning. Instead, it is a continuous process of acquiring skills , values, and beliefs which are beneficial to them from their surroundings.

" A school is an educational institution designed to provide learning environment for students under the direction of teachers". In our Bloomfield House Of Knowledge School , we provide excellent academic knowledge through practical oriented teaching , discussion and systematic instructions. Based on the principles of child pedagogy, we motivate and empower our students to become lifelong learners, critical thinkers, good communicators, analyzers and best human beings through various co-curricular and extra-curricular activities.

"Tomorrow's world will be shaped by today's children". By keeping this in mind, the school provides a platform which ensures students' holistic growth and help them to prepare for their future

**Mrs. Shrilaxmi Deshpande**

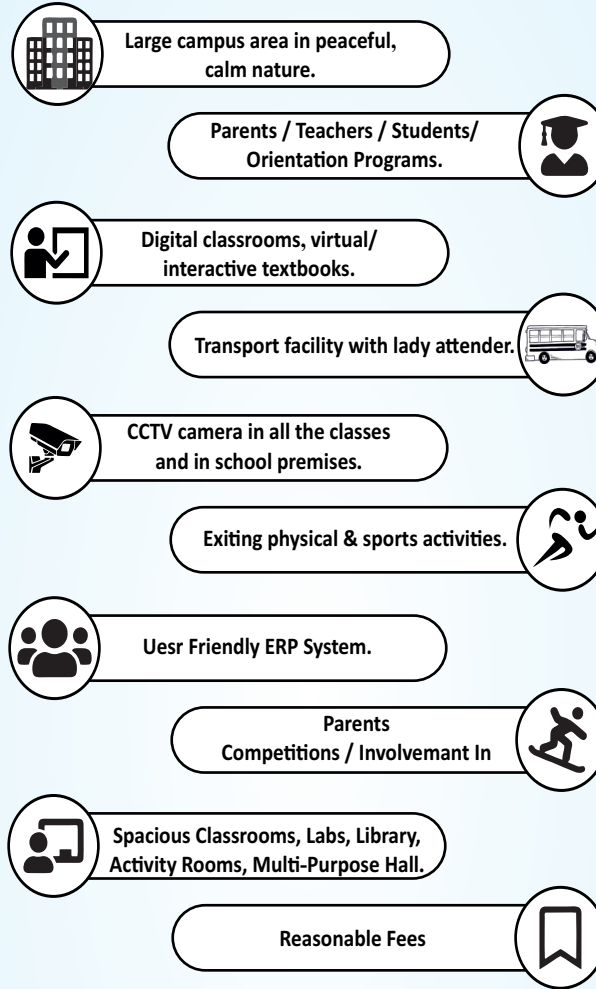

M.A, M.Ed.  
Principal

- Dance
- Music

## Founder's Message

Swami Vivekananda quotes " Education is the manifestation of perfection".

Coming from a humble farming background, I most certainly realized the importance of basic education.

I look forward to give quality education and knowledge to the upcoming generation, and make every child practice their right to education. I believe, if someone wants to bring a change in the society, the change must begin from themselves first. For bringing these changes being knowledgeable about our surroundings is a must. This can be achieved only by education. Education would be a shield for everybody against all odds of the society.

Raj Education Foundation was founded on the quest for providing quality and affordable education starting with Pre primary section till secondary section. I request all the parents to co-operate and coordinate in achieving the foundation's mission and long term vision.

**Honourable**
